About Martin Mahoney, MD, PhD

Dr. Martin Mahoney's responsibilities encompass a mix of clinical care, including general medicine and occupational health, and research.

Dr. Mahoney has an extensive publication record including more than 210 peer-reviewed manuscripts, as well as several book chapters and monographs, including papers focused on vaccines and vaccination topics. He has served as a liaison from the AAFP to the Advisory Committee on Immunization Practices.

Dr. Mahoney is a Fellow of both the American Academy of Family Physicians (AAFP) & the American College of Epidemiology. He has served in a variety of local, state, and national leadership roles within organized medicine and research enterprises. Dr. Mahoney received his medical degree from the University at Buffalo (UB) School of Medicine & Biomedical Sciences. He also completed a doctoral degree in Epidemiology and a faculty development fellowship, both at UB.
